Dear Richard:

Media Training – Cardiff – 15 February 2007

I would like to thank you for the training you provided in Cardiff. I began my 'media training' back in 1998, when the Partner I worked for, sent to me a live legal phone in! From that moment on, I was further 'introduced' to media presentation on further TV programs, Radio and the Press. Your training session was the first formal training I have received!

I am grateful to you for the action packed session that you presented. I certainly learned a great deal from the guidance and tips that you gave to the group. I have certainly given much thought to the many issues raised, and I have set about creating a more developed strategy on media issues, and in particular, the manner in which I present our message. I particularly enjoyed the interactive sessions, and hope to meet with you at the forthcoming Polish Folk Evening!

I have no hesitation in recommending your services, and I shall certainly return in the future for other training modules.

Sincerely,

Frank Brehany
Managing Director – HTW
